

## Submitting Course Schedules

- Print the [Schedule of Courses and Enrollment Statistics](#) for the appropriate school.
- Update the schedule, following the [Instructions for Submitting Course Schedules](#).
- Course schedules must be signed and approved by the dean; only signed and approved schedules will be processed.
- Schedules submitted outside of the approved class meeting times will be automatically aligned to the nearest approved class meeting times. If departments wish to offer a schedule outside of the approved class meeting time, they must seek approval from academic affairs and that approval must be provided to us via email.
- Schedules are due in the [Registrar's Office](#) according to the following schedule:
  - Summer and Fall 2025 » February 4, 2025
- Course schedules will be published online four weeks before priority academic advisement begins.
- To cancel classes, please email the Registrar's Office and include the department's dean or designee for approval.

## INSTRUCTIONS FOR SUBMITTING COURSE SCHEDULES

Update the [course schedules](#) with the following information:

- Enter meeting day(s) and time(s).
- Adjust enrollment capacities based upon accreditation requirements and/or previous terms enrollment.
- Review and adjust the instruction mode to reflect [in-person](#), [online](#), [hybrid remote](#), [blended](#), or study abroad. View the [policy for online and blended courses](#).

CLASS SECTION	CAMPUS	INSTRUCTION MODE	TIME ONLINE
F01	Online	Online	80–100%
M01/W01	NYC/LI	In Person	0–49%
M01/W01	NYC/LI	Blended	50–79%
M01/W01	Zoom	Hybrid Remote	80% or greater

- You may include a room request. Requested rooms are not guaranteed. Specify if a specific room is required, such as: [lab](#), [studio](#), [SMART classroom](#), [computer lab](#), etc.
- Enter exact meeting dates only if the class does not follow the [New York Tech academic calendar](#). If the class is blended, then indicate the actual day/time/date. Courses may only be extended two weeks beyond the end of term.
- Fully online sections start with an "F," such as F01, F02, etc.
- Include class notes such as topics for special topics courses.
- When adding new sections include subject, course number, section, days, times (a.m./p.m.), instructor, required room, and class enrollment capacities. A dean's signed permission is required.

## Notes

- The minutes of lecture, lab, and studios should comply with the minute/credit ratios listed below.
- Day classes must be distributed evenly throughout the week, and evening classes must be scheduled evenly between early and late evening hours. Follow the [approved class meeting times](#) as listed below or indicated in the appropriate [empty schedule grid](#).
- New course IDs (synonyms) will be system generated.
- If you believe a course meets the definition based on learning outcomes (and not the credit/minute ratio), please communicate with the [Office of Academic Affairs](#) and be prepared to provide supporting evidence showing expected outcomes and student achievement. A course section cannot be published in the schedule of classes unless it either conforms to the credit/minute ratios or is an exception approved by Academic Affairs.
- Sections that have a lecture with lab or studio component can be combined into one single section and room unless a separate room is required for one of the components:

	<b>Section</b>	<b>Component</b>	<b>Day/Time</b>	<b>Room</b>
Example 1:	AAID 102 W01	LEC/STD	M/Th 2 p.m. – 4:50 p.m.	EDHL 136
Example 2A:	BIOL-110-W01	LEC	M/W 8 a.m. – 9:20 a.m.	JJTH 411
Example 2B:	BIOL-110L-W01L	LAB	W 8:30 a.m. – 12:20 p.m.	JJTH 408

#### CREDIT/MINUTE RATIOS FOR UG/GR COURSES

<b>Method of Instruction</b>	<b>Credit</b>	<b>Semester Class Minutes</b>	<b>Semester Homework Minutes</b>
Lecture	1	750	1500
	2	1500	3000
	3	2250	4500
	4	3000	6000
	5	3750	7500

If credit is given for a lab or studio, the number of semester class minutes should be at least doubled for each credit awarded. For example, an anatomy and physiology course with (3) lecture credits and (1) lab credit should meet 2,250 minutes for the lecture and a minimum of 1,500 minutes for the lab. The rationale for requiring extra class minutes for the lab is the work done in class, and not homework.

Independent study, tutorials, and online courses must comply with the same minute/credit ratios. While it is not required for days/times to be submitted for these class types, it is the responsibility of departments to be prepared to provide documentation showing expected learning outcomes and evidence of student achievement when New York Tech is audited.

**UG/GR CLASS MEETING TIMES**

	SPRING SEMESTER	FALL SEMESTER
Mon/Wed, Tue/Thu, Wed/Fri, Mon/Fri:	8:00 a.m. – 9:20 a.m. 9:30 a.m. – 10:50 a.m. 11:00 a.m. – 12:20 p.m. 12:30 p.m. – 1:50 p.m. <i>(Tue/Thu free period, no classes scheduled)</i> 2:00 p.m. – 3:20 p.m. 3:30 p.m. – 4:50 p.m. 5:45 p.m. – 8:25 p.m. 8:35 p.m. – 11:15 p.m.	8:00 a.m. – 9:25 a.m. 9:35 a.m. – 11:00 a.m. 11:10 a.m. – 12:35 p.m. 12:45 p.m. – 2:10 p.m. <i>(Tue/Thu free period, no classes scheduled)</i> 2:20 p.m. – 3:45 p.m. 3:55 p.m. – 5:20 p.m. 5:45 p.m. – 8:25 p.m. 8:35 p.m. – 11:15 p.m.

## Faculty Compensation Policy for Online and Blended Courses

### Definitions:

NYIT has established the following definitions for online, blended, and face-to-face courses:

- Online (OL) courses offer 80 – 100 % of the contact hours online.
- Blended (BL) courses offer 50 – 79 % of the contact hours online.
- Face-to-face (F2F) courses offer 0 – 49 % of the contact hours online.

### Policy:

- A. In accordance with the Collective Bargaining Agreement, development of new online and blended courses requires approval from the Chair, the Dean, and the Provost / Vice-President for Academic Affairs, and requires consultation with the Center for Teaching and Learning.<sup>1</sup>
- B. A faculty member shall receive a \$3000 stipend for preparation of a new online or blended course, to be paid during the semester when the course is first offered. If multiple faculty members develop the course they shall share the \$3000 stipend. In extenuating circumstances, or in a case where NYIT decides not to offer the course, the Provost / Vice-President for Academic Affairs may authorize payment after the course has been fully developed and before it has been taught.
- C. A faculty member shall receive one (1) ELH during the first semester that he or she teaches a new online or blended course.<sup>2</sup>
- D. The New Online / Blended Course Development Application must be completed, and all approvals noted, before the course is offered and any payments are made to the faculty member.

### Application Procedures:

1. Faculty with a course proposal to develop a new online or blended course should discuss the proposal with the chair and/or dean prior to beginning any course development.
2. The faculty member consults with staff at the Center for Teaching and Learning.
3. The faculty member proposing the new course completes the application form and obtains the approval and signatures of the chair and the dean.

---

<sup>1</sup> The CBA states in Article X (g) Online Courses: *Based upon the approval of the Chair, the Dean, and the Academic Vice President, and after consultation with the CTL director, a faculty member shall receive a \$3000 stipend for preparation of a new online course.*

<sup>2</sup> The CBA states in Article X (f) Distributed Learning Sections, paragraph 2: *Faculty will receive an extra ELH the first time they teach a particular Distributed Learning course at NYIT.*

4. If approved by the chair and dean, the dean sends the form to Bernadette Calabro ([bbuhler@nyit.edu](mailto:bbuhler@nyit.edu)) in the Office of Academic Affairs for the Provost's review and approval.
5. Copies of the approved application will be sent by the Office of Academic Affairs to the faculty member, chair, dean, director of the Center for Teaching and Learning, and Office of the Registrar.

**Compensation Procedures:**

1. The first semester the course is taught in the new format, the Center for Teaching and Learning will transfer the \$3000 course development funds to the dean's professional supplemental budget line.
2. The faculty member will work with his or her administrative assistant to include the \$3000 stipend for preparation of the course in his or her FACCOMP.
3. The faculty member who is teaching the course will receive one (1) additional ELH from the dean's budget for first-time teaching of the course in online or blended format.

## New Methods of Course Delivery, July 17, 2020

### Purpose:

These designations will be used by the registrar to identify how a particular section of a course is delivered to the students. Designations will be attached to individual sections during registration so students know whether they need to be in a specific location at a specific time, and what technologies are required for them to participate fully in the course.

### Requirements for all New York Tech classes:

Institutional thresholds for required content/contact hours and online activity must be maintained for all courses. Students are required to have a computer with a webcam and access to a reliable internet connection.

All course sections will have, as a minimum, a full course syllabus, contact information and office hours for the faculty, and all deadlines and due dates posted on the institution's approved LMS. All classes should strive to include additional resources and activities, as well as means for students in each class to connect with other students in a virtual environment.

### Methods of Delivery:

Three methods of delivery are the same as we have used previously: **in person**, **blended**, and **online**. The only change is in the definition of blended, to align with nationally-accepted standards. (While we used to mandate that blended courses have at least 50% of the content online, we have adjusted that to 30% as defined by the Online Learning Consortium.)

1. **In Person (IP)**<sup>1</sup>: Traditional classroom courses that are anchored and measured by the number of hours spent in required in-person class meetings in various formats such as lectures, studios, labs, or other required face-to-face activities. This delivery method also includes courses that replace a small amount of the traditional classroom activity with Internet-based work, but very little (up to 29%) of the traditional in-class time is reduced.
2. **Blended (BL)**: A course in which between 30 and 79 percent of the traditional classroom time (or contact hours) are replaced with asynchronous\* online activity. There is still a defined schedule for the required in person class meetings and any online sessions that are delivered synchronously\*\*.
3. **Online (OL)**: A course in which most or all (80% or greater) of the contact hours are conducted through asynchronous online activity. The times for the students to participate are generally flexible, although there are due dates for specific assignments throughout the semester, and there may be occasional synchronous activities (in person or via videoconferencing) or exams.

---

<sup>1</sup> The current DL mode of instruction (point to point video linked classrooms across multiple campuses) is a special implementation of this method of delivery. In The DL mode, both the instructor and students are physically present on campus.

The fourth method of delivery is new, and is a response to new modes of delivery that were adopted in spring 2020 due to the outbreak of COVID-19 and resulting work-from-home orders.

4. **Hybrid Remote Instruction (HRI):** Due to social distancing restrictions imposed by COVID-19, some courses are being offered in a remote synchronous modality. These are courses where the majority of the contact hours are met through synchronous videoconferencing technology. In this mode, at the faculty's discretion, there will be some in-person experience, for example for projects and exams. Courses may also be supplemented with some asynchronous online activity.

\*asynchronous = not happening at the same time (students attend lecture or participate in classroom activities on their own time, and without real-time interactions)

\*\*synchronous = occurring at the same time (students attend lecture or participate in classroom activities in real-time)

# Modes of Instruction

New York Tech offers a variety of course modalities to meet the needs of students and the course requirements.

## In-Person\*

Your classes meet on campus at a specific time.

## Hybrid Remote

Your classes take place mostly on Zoom at a specific time.

## Online

You take classes online at a time you choose.

## Blended

Your classes are a combination of online and either in-person or hybrid remote.

\*In-person classes could shift to remote in response to external circumstances.

Student class schedules, including day, time or instruction mode, may occasionally change based upon department needs. Students are encouraged to periodically check their class schedules.

## Where?

Classes held on campus

Classes held remotely

## When?

Synchronous  
(classes held at a specific time)

**24/7**

Asynchronous  
(classes available at a time you choose)
