

How to Set Up Email Rules in Outlook

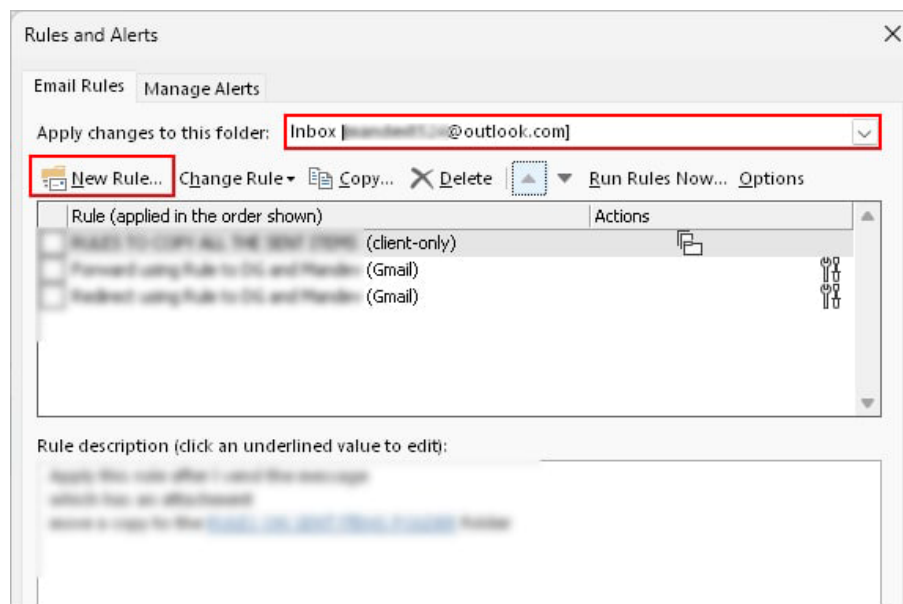

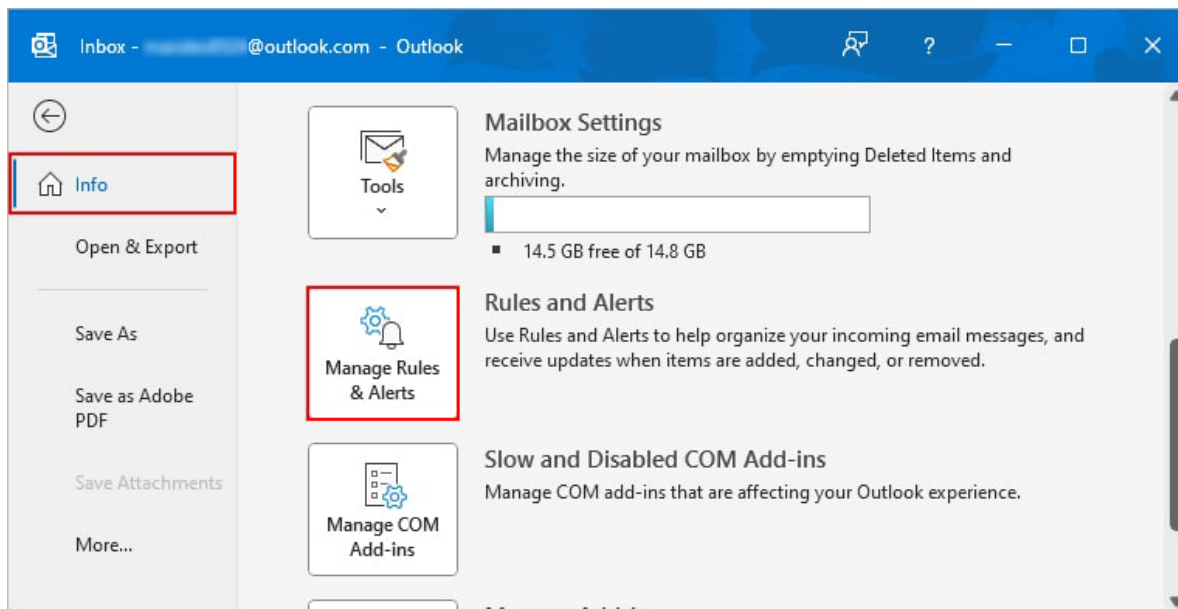

Below is a step-by-step guide to help you create an Outlook rule that automatically moves emails with subject lines starting with “[CIM Courses] Action Required” or “[CIM Programs] Action Required” into a specific folder.

This will cover both Outlook for Windows and Outlook for Mac.

Set Up a Rule in Outlook (Windows Desktop App)

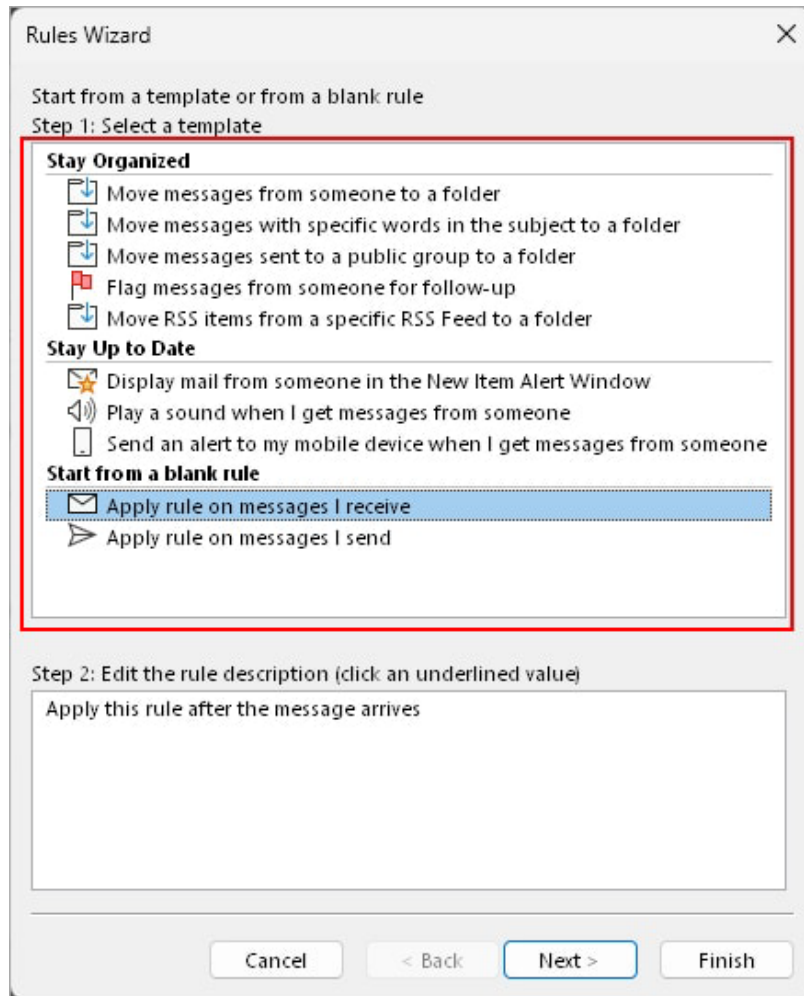

Step 1: Open Outlook

1. Launch the Outlook application on your computer.
2. Click the File tab in the top menu.
3. Select Info from the left sidebar.
4. Click Manage Rules & Alerts

Step 2: Start a New Rule

1. In the Rules and Alerts window, click New Rule.
2. Under Start from a blank rule, select:
 - a. Apply rule on messages I receive
3. Click Next.

Step 3: Set the Condition

1. Check with specific words in the subject.
2. Click the underlined specific words link in the lower pane.
3. In the pop-up:
 - o Type [CIM Courses] → click **Add**
 - o Type [CIM Programs] → click **Add**
4. Click OK
5. Click Next.

Rules Wizard

Which condition(s) do you want to check?

Step 1: Select condition(s)

- ☐ from [people or public group](#)
- ☒ [with specific words in the subject](#)
- ☐ through the [specified](#) account
- ☐ sent only to me
- ☐ where my name is in the To box
- ☐ marked as [importance](#)
- ☐ marked as [sensitivity](#)
- ☐ flagged for [action](#)
- ☐ where my name is in the Cc box
- ☐ where my name is in the To or Cc box
- ☐ where my name is not in the To box
- ☐ sent to [people or public group](#)
- ☐ with [specific words](#) in the body
- ☐ with [specific words](#) in the subject or body
- ☐ with [specific words](#) in the message header
- ☐ with [specific words](#) in the recipient's address
- ☐ with [specific words](#) in the sender's address
- ☐ assigned to [category](#) category

Step 2: Edit the rule description (click an underlined value)

Apply this rule after the message arrives
with [specific words](#) in the subject

Cancel < Back Next > Finish

Search Text

Specify words or phrases to search for in the subject:

Add

Search list:

Remove

OK Cancel

Step 4: Set the Action

1. Check move it to the specified folder.
2. Click the underlined specified link.
3. In the folder list:
 - Click New to create a new folder
 - Enter a name (e.g., CourseLeaf Emails)
 - Choose where to place it (e.g., Inbox)
4. Click OK
5. Click **Next**.

Rules Wizard

What do you want to do with the message?

Step 1: Select action(s)

- ☐ stop processing more rules
- ☒ move it to the specified folder
- ☐ assign it to the category category
- ☐ delete it
- ☐ permanently delete it
- ☐ move a copy to the specified folder
- ☐ forward it to people or public group
- ☐ forward it to people or public group as an attachment
- ☐ redirect it to people or public group
- ☐ have server reply using a specific message
- ☐ reply using a specific template
- ☐ flag message for follow up at this time
- ☐ clear the Message Flag
- ☐ clear message's categories
- ☐ mark it as importance
- ☐ print it
- ☐ play a sound
- ☐ mark it as read

Step 2: Edit the rule description (click an underlined value)

Apply this rule after the message arrives
with 'CIM Courses' or 'CIM Programs' in the subject
move it to the specified folder

Cancel < Back Next > Finish

Rules and Alerts

Choose a folder:

- ▼ E [Redacted]
- ▼ Sent Items
- ▼ Deleted Items
- ▼ Archive
- > Calendar
- > Contacts
- > Conversation History
- Journal
- Junk Email
- Notes
- Outbox
- RSS Feeds

OK

Cancel

New...

Step 5: Set Exceptions (Optional)

- If needed, select any exceptions (e.g., exclude messages from certain people).
- Otherwise, leave everything unchecked and click Next.

Rules Wizard

Are there any exceptions?

Step 1: Select exception(s) (if necessary)

- ☒ except if from people or public group
- ☐ except if the subject contains specific words
- ☐ except through the specified account
- ☐ except if sent only to me
- ☐ except where my name is in the To box
- ☐ except if it is marked as importance
- ☐ except if it is marked as sensitivity
- ☐ except if it is flagged for action
- ☐ except where my name is in the Cc box
- ☐ except if my name is in the To or Cc box
- ☐ except where my name is not in the To box
- ☐ except if sent to people or public group
- ☐ except if the body contains specific words
- ☐ except if the subject or body contains specific words
- ☐ except if the message header contains specific words
- ☐ except with specific words in the recipient's address
- ☐ except with specific words in the sender's address
- ☐ except if assigned to category category

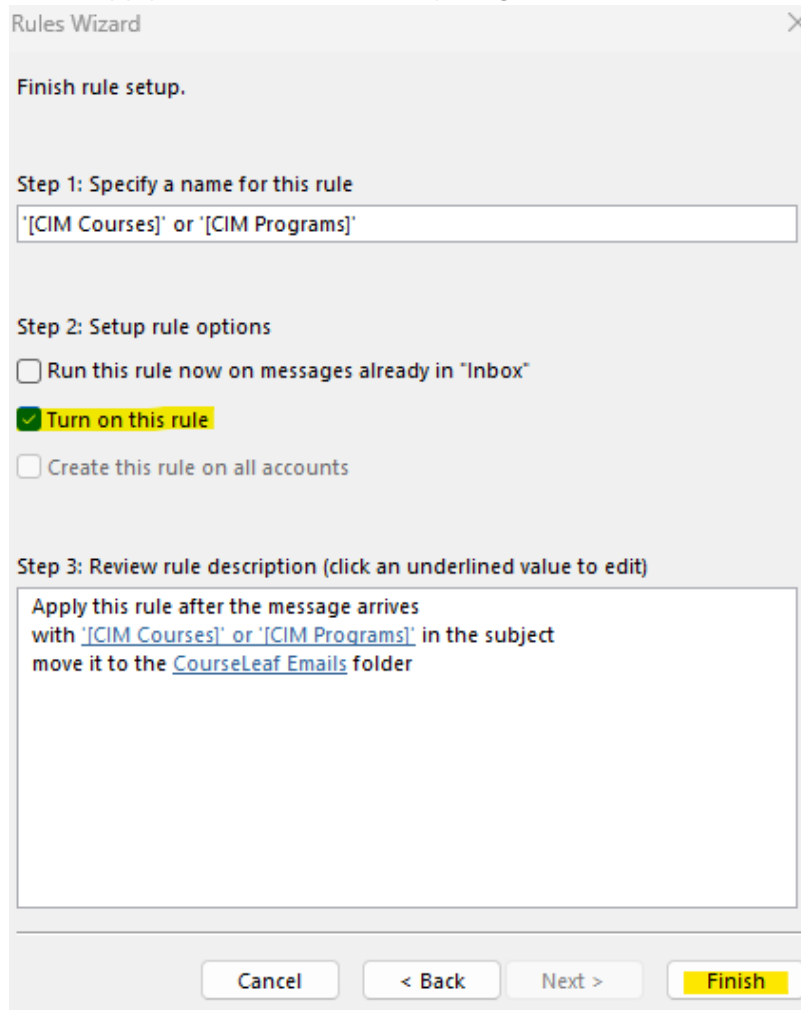

Step 2: Edit the rule description (click an underlined value)

Apply this rule after the message arrives
with '[CIM Courses]' or '[CIM Programs]' in the subject
move it to the CourseLeaf Emails folder

Cancel < Back Next > Finish

Step 6: Finish and Apply the Rule

1. Give your rule a name (e.g., CIM Emails).
2. Check Turn on this rule.
3. Click Finish.
4. Click Apply, then OK to save everything.

The screenshot shows the 'Rules Wizard' dialog box with a close button (X) in the top right corner. The main text reads 'Finish rule setup.' Below this, there are three steps:

- Step 1: Specify a name for this rule**
A text box contains the rule name: `'[CIM Courses]' or '[CIM Programs]'`
- Step 2: Setup rule options**
Three checkboxes are present:
 - ☐ Run this rule now on messages already in "Inbox"
 - ☒ Turn on this rule (This checkbox is highlighted with a yellow background)
 - ☐ Create this rule on all accounts
- Step 3: Review rule description (click an underlined value to edit)**
A text box contains the rule description:

Apply this rule after the message arrives
with '[CIM Courses]' or '[CIM Programs]' in the subject
move it to the CourseLeaf Emails folder

At the bottom of the dialog, there are four buttons: 'Cancel', '< Back', 'Next >', and 'Finish' (which is highlighted with a yellow background).

Test the Rule

Send a test email with one of the matching subject lines to confirm:

- It skips the inbox
- And lands directly in your CourseLeaf Emails folder

Notes

- You can edit, delete, or copy this rule at any time by returning to Manage Rules & Alerts.
- If you want the rule to apply to existing emails, right-click the folder > Rules > Apply Rules Now.

Set Up an Outlook Rule on Mac (Microsoft 365 / Outlook app)

Before you start: Make sure you are using the Outlook desktop app (not just Outlook in the web browser).

Step 1: Open Outlook

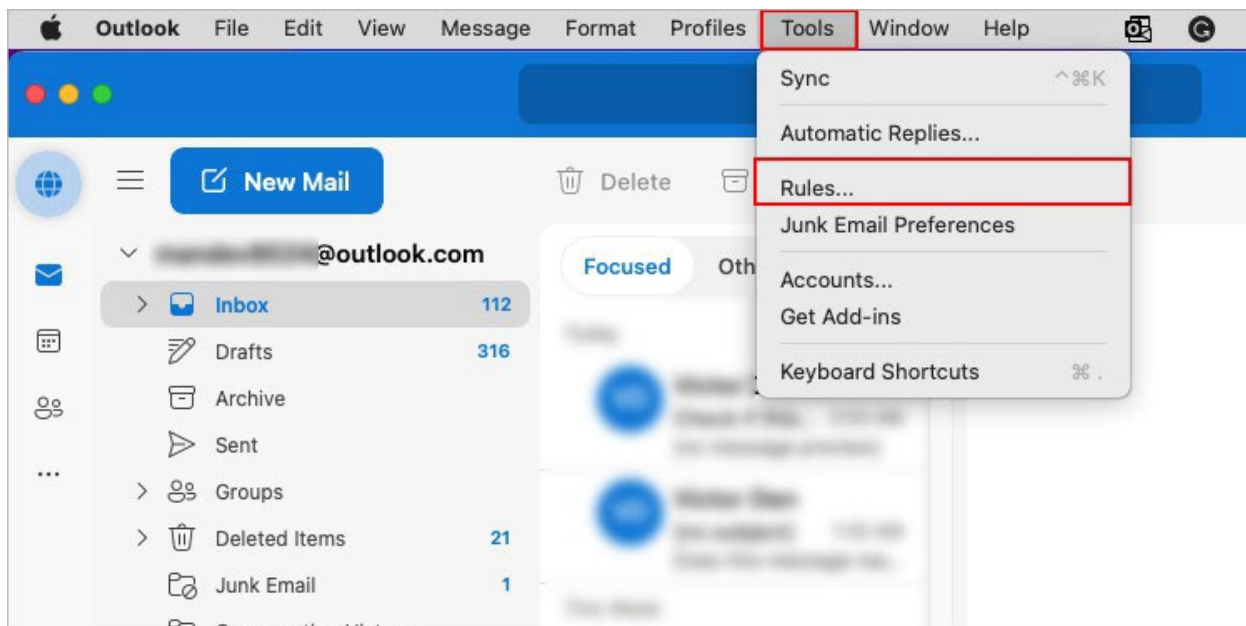

1. Launch the Outlook app on your Mac.
2. Make sure you are in Mail view (look at the left sidebar).

Step 2: Create the Target Folder (if needed)

1. In the sidebar, right-click your account or Inbox.
2. Select New Folder.
3. Name the folder (e.g., **From John Doe**).
4. Press Enter and the folder should now appear in your folder list.

Step 3: Open the Rules Window

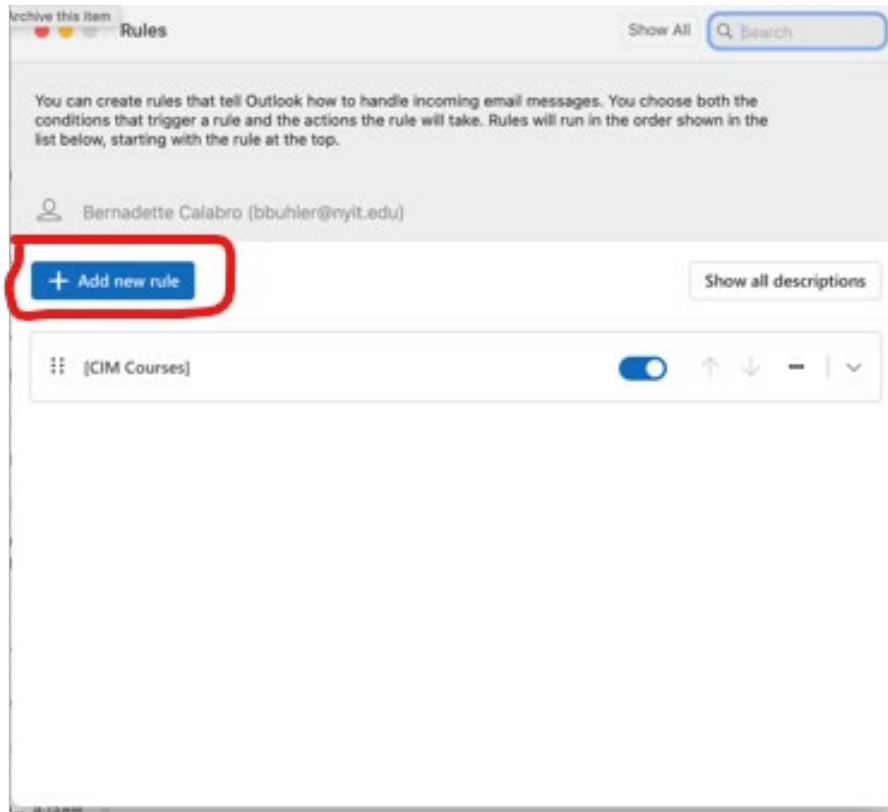

1. On the top menu bar, click Tools.
2. Select Rules from the dropdown.

Step 4: Choose Account

In the Rules window:

1. Select the account you want (e.g., Exchange, Outlook.com, or whatever your work account is).
2. Click the + button to add a new rule.

Step 5: Define the Rule

In the **Edit Rule** window:

Name the Rule:

- Type a descriptive name, like Move emails from johndoe@example.com.

When a new message arrives that meets all these conditions:

- **Condition 1:**
 - From → Is → johndoe@example.com (or whichever address you want)

Do the following:

Move → Choose Folder → select the folder you created earlier (From John Doe).

Step 6: Adjust Additional Options (Optional)

- You can add other conditions if needed (like subject contains, sent to, etc.).
- You can also choose whether to stop processing other rules if this one applies.

Step 7: Save the Rule

1. Click OK to save the rule.
2. Close the Rules window.

Step 8: Test the Rule

Send a test email from that address to yourself (or wait for a real one) and confirm:

1. It bypasses the inbox and

2. Lands directly in the target folder.

Notes

- If you want to apply the rule to existing emails, after creating it, go to the folder, right-click, and use Rules > Apply Rules.
