MAY

Quote of the month:

If something is wrong, fix it now. But train yourself not to worry, worry fixes nothing.

Ernest Hemingway

TUTOR TALES

Once there was a time when I had 10 tutoring appointments in the same day. I had to stay on campus from 10 AM to 11 PM. It was challenging and fun. I miss the good old days on campus. After tutoring for 3 years at NYIT, I learned that tutee satisfaction is very important. Keep course-folders organized, prepare before tutoring appointments, read any special notes provided by students, treat everyone equally and respectfully, show all the steps during the session, and do not provide any wrong explanation to students. If you do not know the answer, provide the resources which can help the student solve his problem. Happy tutoring!

Elis Cucka

TUTORING TOWARDS SUCCESS

Share these 'When to Use Tutoring' Tips with your peers and tutees!

- After you finish homework, meet with a tutor to review your work & go over areas where you got stuck.
- Review topics of confusion after class lectures, or on an assignment.
- A few days prior to an exam, review any topics and questions in which you are struggling with.
- For post exam review, meet with a tutor to go over questions you got wrong to gain a better understanding and foundation in your course.
- Schedule tutoring proactively! You don't have to be doing poorly, to seek out tutoring.

Event of the month!

END OF THE YEAR
EMPLOYEE APPRECIATION
