## TUTORING PROMO VIDEO

The Learning Center at the Manhattan Campus is excited to share a promotional video showcasing the service and opportunities which are available to students at the Learning Center!

## PSG STORIES

Our Peer Success Guides (PSG) guide and mentor first-year NYIT students, as they navigate their way through college. We always like to hear from our PSGs and we are excited to share the following two stories.

"During my freshman year, I faced numerous challenges, and now I can use my experiences to provide a warm welcome to incoming freshmen."

"I got the opportunity to assist my mentees with a variety of questions they had, such as internships, setting meetings with advisors, and class schedule assistance."

"As a PSG, I've obtained real-world experience via networking with people from all backgrounds and disciplines."

"As a PSG, my goal has always been to be able to guide and support first year students in any way possible."

"I have had a few mentees ask me about jobs and internships. I have made sure to help them in the best way possible by giving them all the tricks and tips and the support from different resources on campus and off campus."

"It is wonderful to see the progress that my mentees have made at the end of the year!"
