

Partnership with Memorial Sloan Kettering Cancer Center

When you are faced with cancer, access to reliable information and comprehensive care is crucial.

We have partnered with Memorial Sloan Kettering (MSK) to offer a benefit called MSK *Direct* — a program that offers guided access to exceptional cancer treatment for all of our employees and their family members.

The MSK *Direct* team includes experienced nurses, social workers, and Care Advisors who promptly connect patients with cancer specialists at MSK — one of the top hospitals for cancer care in the country — while providing practical and emotional support along the way.

There is no extra charge to use MSK *Direct* and enrollment in the program is automatic — there is no need to sign up. MSK *Direct* does not change any of your other health benefits. Patients are responsible only for standard out-of-pocket costs (such as insurance co-pays, coinsurance, and deductibles) for the medical services received from MSK. Contact your health plan to determine your coverage for care at MSK.

For more information, please visit the MSK Direct FAQ [link](#).

To speak with an MSK Direct representative, call the dedicated toll-free member line at (844) 506-0589.
